

Armadillo

PROTECTIVE CASE

Including R&D Produce Sales and After-sales

Professional Protective Case Supplier

Each of Armadillo cases are strong, watertight, anti-impact, dust-proof, corrosion resistance, high and low temperature resistance

1.Feature

1. Choose high quality pure PP plastic material, together with the special configuration secret receipt and unique manufacturing process, witch makes the protective case shell particularly strong, anti-fall, anti-impact, waterproof, dust-proof, corrosion resistance and anti-limit temperature.

2. Automatic air pressure balance valve, which installed the special material waterproof breathable films, gas molecules can freely through the diaphragm and water molecules can not enter. Under the change of height or temperature, when the pressure inside and outside the box is different, the gas molecules can move freely to compensate for the pressure difference, so that the case can be opened easily under any conditions. Meanwhile, keep the case dry.

3. Double lock and claw latch design, press times exceed 10,000, can prevent self-opening. Far more solid than traditional snap locks.

4. There is o-types sealing ring embedded in the groove in the box cover. When the box is closed, it will be closely closed with the convex groove on the box body, so as to prevent the entry of water vapor or dust.

6. Curved case corner design, buffer effect. There are two protruding edges on the surface of the case, which makes the stacking case easier and more stable.

7. Life time warranty:

For any reasons, if the Armadillo case that you purchased is broken, we will replace a new one for you or refund. (O-ring must be lubricated according to product instructions. If Armadillo cases are used in an unconventional way or intentionally damaged, we will not provide such services.)
